### [Our New Children with P. M. H. Atwater, L.H.D.](#)

It began in 1982, a flood of children being born worldwide that would challenge parents, educators, and employers as never before: children who would defy generational typing. They haven't quit coming, nor will they, as the new children are us. Toss the labels - indigo, crystal, starseed, cosmic, psychic - then combine all those characteristics - and you'll have a profile of the new kids (of any age). In this workshop, we take a look at what is really happening and why we are so challenged to understand: their talents and weaknesses, the unusual rise globally in intelligence, technology - how it affects brain development, their no-nonsense nature and tendency toward anger, otherworldly abilities that defy explanation, learning differences and health issues, the march of generations and their energy signatures, the coming of the fifth world and the fifth root race, and tracing the historical spread of this patterning.

P. M. H. Atwater, L.H.D. is one of the original researchers in the field of near-death studies, having begun her work in 1978. She has published nine books on her findings, among them *The Big Book of Near-death Experiences* (featured in an online version of "Newsweek Magazine"), and has just completed her 10<sup>th</sup> and final offering. She is also a generational researcher and the author of the first major study of today's children, and their place in our rapidly changing world, that combines objective research with mystical revelation and prophecy - *Beyond the Indigo Children*. Combined with *The New Children and Near-Death Experiences*, she presents a compelling case on how the human family as a species is changing. ### [A Workshop For Miracle Workers with Terry Atwater](#)

Terry Atwater shares the practical insights he has gained from over 30 years as a metaphysical student/teacher. President of the Charlottesville-based Foundation For The Study and Application of A Course In Miracles, he will introduce you to mind expanding principles from *A Course In Miracles*, *Science of Mind*, and other life-changing spiritual teachings.

A graduate of Hampton University, Terry continues to share a very deep interest in spirituality, as does his wife, author and near-death researcher P.M.H Atwater. Terry and P.M.H have been happily married for 30 years. As a marketing executive, metaphysician, and martial artist, Terry's experiential insights are both powerful and practical in everyday life. Come prepared to learn, to laugh, and to experience miracles.
